

SKILLS AND LANGUAGES

- **Programming Language:** Hands-on Projects: Python, C++, JavaScript, SQL; Coursework: Java, C, Solidity
- **Techniques:** PyTorch, TensorFlow, MapReduce, Docker, Git, Tableau, MS Office
- **Spoken Language:** Mandarin (Native), English (Expert), Cantonese (Fluent), Hokkien (Conversant), Japanese (Beginners)

WORK EXPERIENCE

- | | | |
|---|---|------------------------------|
| Quantitative Researcher | Alveria Capital, Singapore | Apr 2025 - Aug 2025 |
| <ul style="list-style-type: none">• Develop intraday 1-minute-level strategies for US equities that reads on each quote data with snapshots• Developed back-test platform and real-time trading bot in C++, forward to a full stack warehouse hosted in website• Automated Alpha Mining with LLM and Random Forests, Factor Library Build, fitness and trade log quality checks | | |
| Quantitative Analyst | Datalouder.com, Hong Kong | June 2023 - Sept 2023 |
| <ul style="list-style-type: none">• Used QuantLib to estimate delta , implement delta-neutral strategies based on US Stocks price and options data• Developed 1 day and 1 minute-level Momentum Gap Strategies for ETH/USDT (Ann Return 60%+, Sharpe Ratio 3+)• Researched on market-making strategies on 1-second-level ETH/USDT order fills rate data• Forwarded back-testing results, with web chart integration, to Telegram channel | | |
| Part-time Research Assistant | Nanyang Technological University | Aug 2024 - Jan 2025 |
| <ul style="list-style-type: none">• Constructed data warehouse and developed websites to visualize the global climate data using Tableau. Details, Website. | | |
| Full-time Research Staff | The Hong Kong Polytechnic University | May 2024 - Sept 2024 |
| <ul style="list-style-type: none">• Implemented an automated framework to use ChatGPT API to analyse reports about Firms' Mandatory Climate Risk Disclosures Effect on Mitigating Global Warming by conducting Event Study together with stock prices.Source Code | | |
| Summer Research Internship | The Chinese University of Hong Kong | June 2022 - Dec 2022 |
| <ul style="list-style-type: none">• Developed a universal benchmark for Deep Learning -Based Time Series Forecasting for different datasets. (Source Code). | | |
| Full-time Research Staff | Hong Kong Logistics Robotics Centre | May 2021 – Sept 2021 |

PROJECTS

- **Awesome Twitter Clone:** Built a full-stack twitter clone software on website with features about login/register/tweets/commenting/following, with React.js and MongoDB, hosted by Vercel.
- **Refined FinRL:** Enhanced a reinforcement learning framework for multi-cryptocurrency trading at 1 hour level, optimizing strategy performance using the stable-baseline and gym library.
- **Backtest with Vis:** Built a trading backtesting framework in Python Plotly.js, visualizing trades on multiple stocks in the real time with complete metrics, logs, and visualizations, posted to live websites.

EDUCATION

- | | | |
|--|------------------|---------------------------------------|
| WorldQuant University | Online | Jan 2025 – Jan 2027 (Expected) |
| <ul style="list-style-type: none">• M.Sc. in Financial Engineering, cGPA 84/100• Coursework: Stochastic Modeling, Portfolio Management, Risk Management, Deep Learning in Finance• Cert. in Foundations of Financial Engineering: Recognizes deep analytical and computational skills in Financial Markets | | |
| Nanyang Technological University | Singapore | Aug 2024 – May 2025 |
| <ul style="list-style-type: none">• M.Sc. in Financial Technology (Specialism: Intelligent Process Automation), cGPA:4.65/5.0• Coursework: Algorithmic Trading, Quantitative Methods in Finance, Statistical Modeling, Derivatives Pricing, Fixed Income Securities, Reinforcement Learning, Natural Language Processing, Information Retrieval, Blockchain Engineering & Smart Contracts• PGC Class Champion for the Graduating Class of 2025: Recognizes engagement among students and alumni in NTU | | |
| The Chinese University of Hong Kong | Hong Kong | Sept 2020 – Jul 2024 |
| <ul style="list-style-type: none">• B.Sc. (Hons) in Computer Science (Stream: Database and Information Systems), cGPA3.5/4.0, First Class (Top 15%)• Coursework: Design and Analysis of Algorithms, Fundamentals of AI, Web-scale Information Analytics, Database Systems, Cloud Computing & Storage, Computer Networks, Operating Systems, Software Engineering, Probabilities and Statistics• Postgraduate Entrance Scholarship 2024, Anxi Mingning Educational & Charitable Association <i>Cap. 8,000 CNY.</i> (Details)• ELITE Scholarship AY 2021/2022, Faculty of engineering, CUHK, <i>Cap. 20,000 HKD.</i> (Details)• Honors at Entrance AY2020/2021, the Chinese University of Hong Kong, <i>Cap. 300,000 HKD.</i>(Details).• Undergraduate Entrance Scholarship 2020, Anxi Mingning Educational & Charitable Association <i>Cap. 5,000 CNY.</i> (Details) | | |
